

Quirindi

SPRING MARKET SNAPSHOT

Hello Quirindi!

Spring is traditionally one of the busiest times in our local property market, so we thought we'd share a quick snapshot of what's been happening across Quirindi over the past 12 months.

92 homes sold. \$447,500 median sale house prices, with 424 active / interested buyers in the market.

Behind every one of those numbers, is a local family making a move, an investor making a decision, or someone beginning their next chapter.

If you're wondering what the changing market might mean for your property, we'd love to have a chat.
